TRANSITION OF THE ELECTRONIC HEALTH INFORMATION SYSTEM (eHMIS/DHIS2) TO THE REVISED HMIS TOOLS AND REPORTS.

The Ministry of Health with support from Stakeholders revised Health Management Information System (HMIS) tools to align with current diagnostic and clinical strategies.

The revised tools and reports guided the systems modifications process in the eHMIS/DHIS2 which is used for routine aggregate reporting on all disease areas across the country.

This communication is to inform you that the review process and subsequent customization of these tools within the eHMIS/DHIS2 has been finalized and roll out for use across the Health sector shall commence in the financial year 2025/2026.

The system transition has been planned to happen as per schedule below

1. 033b weekly surveillance report: Starting with the reports of week 30th June 2025 to 6th July 2025 – system change shall happen on **7th July 2025**
2. All monthly reports 105,108: Starting with reports of July 2025 – system change shall happen on **1st August 2025**
3. All Quarterly reports 106a, 097b, 104: Starting with reports of July – September 2025 – system change shall happen on **1st October 2025**

This communication is to further guide that effective 1st July 2025, all reports at facilities should be generated using the new tools.

We advise you to start data cleaning for previous data. Following the transition, changes to data elements that would have changed will be a challenge.

Please reach out to the MOH HMIS Support team on hmissupport@health.go.ug for further support and guidance on this process.

Dr Charles Olaro

DIRECTOR GENERAL HEALTH SERVICES

CC: Permanent Secretary – Ministry of Health

CC: All Heads of Department – Ministry of Health

CC: All Heads of Programs – Ministry of Health
